

## Idle Intelligence

- Solve math problems to get money
- Buy self-improving products and take certification tests in order to get promoted
- Promotions make math problems harder, but pay significantly more money
- Invest in different vehicles with varying risks and interest rates
- Two raises per promotion
- Social status points (SSP, go up when you buy improvements, certain number of points required for raises and promotions)

### Screens:

#### Main Screen displays:

- math problems
- number pad for entering answers (num pad has numbers, backspace, and clear, no enter, it just checks if the number is right after each button press)
- current money
- current job title
- current social status points
- total number of answered problems

#### Self-Improvement Store Screen displays:

- current social status points
- social status points required for next raise/promotion
- list of different self-improving things you can purchase, their effect on social status points, how much they cost, and how many times they have already been bought

#### Investments Screen displays:

- current ongoing investments, time left, interest rates, risk
- list of available investments with info about their interest rates, locked-in time, risk, and minimum buy ins.
- current cash money (located in a “general bank” where 1% interest is earned for every 10 answered questions)

### Jobs:

burger flipper

(\$8,10,12)(SSP 0,25,50)

maintenance/handyman

(\$15,18,20)(100,250,500)

manufacturing laborer

(\$25,30,35)(750,1k,1500)

heavy machinery operator

(\$40,45,50)(2k,3k,4k)

sales guru

(\$60,65,75)(5k,6k,7k)

crew manager

(\$80,90,100)(8k,10k,12k)

single digit addition

single digit subtraction (no negative answers)

double digit addition (10-25)

double digit subtraction (10-25)(no negative answers)

single digit multiplication

single digit (single digit dividends and answers) division  
(no fractional answers)

head of sales (\$110,125,135)(15k,17k,20k)	double digit addition (25-99)
sales manager (\$150,175,200)(25k,30k,35k)	double digit subtraction (25-99, no negative answers)
CFO (\$225,250,280)(40k,45k,50k)	random selection of double digit subtraction or addition, or single digit multiplication or division
vice president (\$500,750,1k)(60k,70k,85k)	triple digit addition
CEO (\$1250,1500,2k)(100k,120k,150k)	triple digit subtraction
Primary stock owner (\$2500,3k,4k)(175k,200k,225k)	multiplication 10-25
ridiculously wealthy venture capitalist (\$5k,6500,8k)(250k,300k,350k)	division 10-25 (dividends and answers)
most influential being in the world (\$10k,12k,15k)(500k,750k,1kk)	triple digit addition, subtraction, or 10-25 division or multiplication
owner of nations (\$50k,75k,100k)(1500k,2500k,5kk)	4-digit addition
supreme ruler of earth (\$300k,500k,1kk)(10kk,25kk,100kk)	random (any of the previous possibilities)

#### Self-Improvements (SSP = social status points):

-hair cuts	+5	SSP	\$20+100% for each additional purchase on everything
